Keep food out of bedrooms and living rooms

Avoid the use of mulch next to the foundation, which provides an ideal place for outdoor ants to nest and to gain entry into the home

Caulk any points where ants (roaches) (ants and roaches) (bugs) (and other listed bugs) enter into wall voids, cracks and crevices including entry points from outside or neighboring units

Caulk hiding spots and points of entry from outside or neighboring units

Vacuum rugs, carpets and upholstery thoroughly to remove flea eggs and larvae. Pay particular attention to areas where pets rest. Be sure to remove and dispose of the vacuum bag so fleas and eggs do not re-infest (the home).
